

Asmaa Wafik

UI/UX Designer | Product Designer

Cairo, Egypt | asmaawafik01@gmail.com | 01122793101

SUMMARY

UI/UX Designer with 3 years of experience designing enterprise ERP systems, POS products, mobile applications, and business websites. Skilled in transforming complex business requirements into intuitive, scalable user experiences through user-centered design, design systems, and responsive interfaces. Experienced in collaborating with cross-functional teams throughout the product lifecycle, from requirements gathering and prototyping to developer handoff and Design QA.

SKILLS

Design Tools: Figma (Auto Layout, Components, Variants, Design Systems, Interactive Prototyping), Adobe XD
Product & UX Practice: User Flows, Wireframing, Information Architecture, Interaction Design, High-Fidelity UI, Responsive Web & Mobile Design, Design Systems, Business Requirements Gathering, Developer Handoff, Design QA, Cross-Functional Collaboration, Arabic Interface / RTL Design
Languages: Arabic (Native), English (Excellent)

EXPERIENCE

UI/UX Designer — Microtec Saudi January 2023 – Present

- Designed, enhanced, and maintained enterprise ERP applications across nine core modules (Accounting, Finance, Sales, Purchase, HR, Fixed Assets, General Settings, Dashboards, and Reports/Print Outputs), working within and extending the company's existing design system.
- Redesigned the company's standalone POS product, improving usability and visual consistency.
- Built a Self-Order Kiosk interface from scratch, supporting both portrait and landscape orientations.
- Created the company website from scratch in Adobe XD, then migrated and refined it in Figma; also contributed to the ERP website and Help System.
- Developed interfaces for the Fooj mobile application and Stable Owner Dashboard, delivering responsive layouts across web and mobile.
- Extended the design system by creating reusable components, variants, and templates, and building interactive prototypes with lightweight micro-interactions.
- Collaborated in business meetings to gather requirements and understand product workflows, translating them into user flows and UI designs.
- Partnered with developers through design handoff and Design QA, identifying UI inconsistencies and implementation issues post-development and resolving them together.
- Identified UX issues in existing workflows and proposed improved solutions to product and engineering stakeholders.

FREELANCE EXPERIENCE

Freelance UI/UX Designer — Batecom: Real Estate Website 2025

- Delivered a complete website design for a real estate business as sole designer, turning client requirements into a live, development-ready product.
- Managed the complete design process from requirements gathering and UX planning to UI design and developer handoff, using Figma.

Freelance UI/UX Designer — BCare: Healthcare Appointment Mobile App 2026

- Designed a healthcare appointment mobile application giving users an end-to-end path to book appointments and services.
- Built a lightweight design system and reusable UI components to keep the app consistent without a formal system in place.

EDUCATION

Bachelor's Degree, Faculty of Mass Communication, Cairo University (2018–2022)

- Radio and Television Department (Arabic Section), Video minor, GPA 3.7 (Excellent)
